Telephone number(s) we can reach you at from 8 a.m. – 12 p.m.

*PLEASE READ CAREFULLY AND SIGN*

During today's dental procedure, the doctor will examine your pet's teeth and determine if any additional treatments such as tooth extractions are necessary. Please indicate your wishes below:

- Please call prior to any tooth extractions or additional procedures
- Call only if additional extractions or procedures will add additional charges
- Perform whatever is necessary during today's visit to treat my pet

**If you cannot be reached while your pet is under anesthesia**, would you like us to

- Wake your pet up from anesthesia without completing additional treatments
- Do whatever is necessary to avoid a second anesthesia

In preparation for today's dental procedure, we recommend a blood profile to ensure that your pet is in a low risk category prior to anesthesia. The latest technology has enabled us to run safe and accurate blood chemistries minutes before anesthetic induction. These tests are similar to those your own physician would run were you to undergo anesthesia. In addition, the results of these tests will serve as reference values for future use should your pet become ill. **The costs listed below are in addition to the cost of the dental procedure itself.**

**PROFILE #1                      HEALTHY PATIENTS UNDER 7 YEARS OF AGE                      COST = \$95.00**

Includes:

Complete Blood Count (assesses anemia, infection, clotting)  
BUN (kidney)      ALKP (liver)      Glucose (sugar)  
TP / Electrolytes (hydration)      Creatinine (kidney)

**PROFILE #2                      PATIENTS OVER 7 YEARS OF AGE                      COST = \$105.00**

Includes:

**OR PATIENTS WITH QUESTIONABLE HEALTH STATUS**  
all the tests in Profile #1 plus expanded testing of concern for older pets.

**CHECK ONE:**       Profile #1       Profile #2       Decline pre-surgical testing

**Senior Wellness Profile                      PATIENTS OVER 7 YEARS OF AGE                      COST = \$110.00**

Includes:

**OR PATIENTS WITH QUESTIONABLE HEALTH STATUS**  
all the tests in Profile #2 plus Thyroid, SDMA and Urine tests.

**Senior Wellness Testing has to be done one month to two days prior to surgery. Please call ahead of time to schedule a blood draw and urine collection with a Vet Tech prior to surgery.**

**PAIN MANAGEMENT**

**Cost Varies**

Advances in veterinary medicine have provided new medications that lessen your pet's discomfort following surgery. We will provide an analgesic injection prior to surgery and send home pain medication as necessary.

**CHECK ONE:**     Yes       No    I would like appropriate pain medications for my pet.  
**(More on Back)**

**PET IDENTIFICATION (HomeAgain)**

**COST = \$42.99\*\***

**\*\*Includes cost to implant chip, activation fee and first year membership.**

We recommend implanting **HomeAgain** microchips in case pets are lost or stolen. This is a permanent identification that your pet can never lose, alter or damage. Animal shelters nationwide routinely scan all pets they receive.

**CHECK ONE:**  Yes       No      I would like a microchip implanted in my pet.

I am the owner or agent for the owner and hereby consent and authorize the performance of the procedure(s) listed above. I also authorize the use of appropriate anesthetics and other medications deemed necessary by the Veterinarian. I have been advised to the nature of the procedures or operations and the risks involved. I realize that results cannot be guaranteed. I have read and understand this authorization and consent.
