

Attention Pet Parents:

In an effort to help prevent the spread of the Covid-19 virus we are following the recommended guidelines of our state and local authorities and the American Veterinary Medical Association regarding social distancing. As a part of our Veterinary Oath it is our duty to protect and promote public health.

- At this time, we are **suspending all in-person appointments**. We are asking that all clients call us once you are in the parking lot and one of our staff members will be out to meet you and get a history from you. If your pet is ill, we will call you with a recommended treatment plan after the doctor has examined your pet. Sick pets may need to stay for a few hours for us to complete all diagnostics. For annual wellness exams we will have you wait in the parking lot while we complete your pet's exam and vaccines.
- We are also offering **curbside pick up of medications and food**. In order to simplify this process, you can call and pay over the phone prior to pick up of medication and food. Then call us when you arrive in the parking lot and we will deliver your items to you.
- If you are showing signs of illness or quarantined please send your pet to the appointment with someone else. If you are unable to find someone to bring your pet in please call us for further instruction.

We are taking every effort to keep our staff healthy and continue to provide a high level of care for your pets. Thank you for your understanding during this time.
